P R E F A C E

The book entitled “Civil Engineering Objective type Questions and Answers for competitive Exams” aims in catering the needs of the Civil Engineering Students. Amongst all branches of engineering, the scope of civil engineering is wide and larger. It is one of the oldest engineering disciplines. The credit of creating entire infrastructural framework of a modern nation goes to civil engineers.

Civil Engineering is perhaps the most resourceful branch among all the engineering branches. It is the branch with a lot of multiplicity. It can be considered as a single largest branch among all the engineering branches. Hence in this book entitled “Civil Engineering Objective type Questions and Answers for competitive Exams” an attempt is made to cover all areas related to it and hundreds of multiple choice questions are given with options and a correct answer key.

The book consists of 20 chapters related to the field of civil engineering which includes: Airport Engineering, Applied Mechanics, Building Materials, Concrete Technology, Construction Planning, Design of Masonry Structures, Design of Steel Structures, Docks and Harbour Engineering, Engineering Mechanics, Environmental Engineering, Fluid Mechanics, Highway Engineering, Irrigation and Hydraulic Engineering, Railway Engineering, Soil Mechanics, Strength of Materials, Structural Analysis, Surveying, Traffic Engineering and Management and Tunnel Engineering.

Each chapter and MCQ questions are neatly arranged and questions are selected keeping in view the emerging need of the students and teachers. This book is useful for UPSC, MPSC, GATE and all type of examinations of Civil Engineering as well as during placement.

ACKNOWLEDGEMENT

First and foremost we thank the almighty, the greatest architect of the universe for giving us such speculate years. We could never have accomplished this without the faith we have in the Almighty.

We are grateful to the Management of SNS College of Engineering and SNS College of technology who have laided seeds of enthusiasm and passion in my pursuit of knowledge.

We thank all teaching and non-teaching staffs of the Department of Civil Engineering for their kind cooperation during this work. Their critical remarks and suggestions have always been very helpful in improving my skills and for strengthening the manuscripts.

We also express our heartfelt sense of gratitude and sincere thanks to our beloved parents , family members and friends who have helped in collecting the resources and materials needed for this book and for their support during our entire period of publishing.

 Author(s)

**DEDICATED TO OUR
BELOVED FAMILY MEMBERS
AND TO OUR FRIENDS**

CONTENTS

1.	AIRPORT ENGINEERING	1
2.	APPLIED MECHANICS.....	13
3.	BUILDING MATERIALS	43
4.	CONCRETE TECHNOLOGY	75
5.	CONSTRUCTION PLANNING.....	112
6.	DESIGN OF MASONRY STRUCTURES	140
7.	DESIGN OF STEEL STRUCTURES.....	155
8.	DOCKS AND HARBOUR ENGINEERING	181
9.	ENGINEERING MECHANICS.....	192
10.	ENVIRONMENTAL ENGINEERING.....	220
11.	FLUID MECHANICS.....	253
12.	HIGHWAY ENGINEERING	277
13.	IRRIGATION AND HYDRAULIC ENGINEERING	307
14.	RAILWAY ENGINEERING	340
15.	SOIL MECHANICS.....	364
16.	STRENGTH OF MATERIALS.....	394
17.	STRUCTURAL ANALYSIS	417
18.	SURVEYING	432
19.	TRAFFIC ENGINEERING AND MANAGEMENT	457
20.	TUNNEL ENGINEERING	487
