PREFACE

This textbook begins by giving a basic idea of renewable and non-renewable resources, ecosystem and biodiversity and takes the readers into the comprehensive details of environmental pollution, social issues and its relationship with the environment; in addition, it discusses how the increasing population has adversely affected the environment. It will help students to understand the needs and methods of conducting field research. The practical approach followed in this book will help students to explore the importance and scope of Environmental Education.

It presents an overall and comprehensive perspective, which acknowledges the fact that the natural and the human-made environments are interdependent

ACKNOWLEDGEMENT

The work of a book or a study can never be executed with one or two people, but with the team work and help of the experts. Our book has compiled with the team work and the righteous advises of our guides, other Pharmacy professionals.

Firstly, we would like to expand our genuine appreciation and thankfulness to IIMT College of Pharmacy, for giving us a chance of writing this book.

We give regard and express our gratitude to our Director Sir, who kept an eye on our work and gave all his support and inspiration which kept us motivated to finish our work duly. We are fortunate enough under his dynamic vision, truthfulness and direction.

We would also like to show our gratitude to our parents, families and friends their supports. We are indebted to all the peer reviewers who with their hard work have made this Book a possible outcome.

At the end, we just want to add that this Book is the result of lots of sleepless nights, labored days.

Thanking everyone who made it possible.
